Your reliable partner in the Organosilane field.

POWER CHEMICAL CORPORATION (PCC), a Korean-owned company, located in Jiangsu, China, has more than 20 years' experience in manufacturing various silicone materials.

We established six factories in China to manufacture organofunctional silanes (Silane Coupling Agents, Silane Crosslinkers, Silane Blocking Agents), silicone fluids (Straight, Modified), silicone rubbers (Gum, HTV, RTV and LSR), silicone resins and fumed silica. Now our annual

production capacity is over 60000 MT.

SiSiB[®], the registered trademark of PCC, has become one of the most famous brands in the worldwide nowadays. Our products have been marketed across Europe, America and Asia Pacific, totally over 100 countries.

RESEARCH & DEVELOPMENT

We think R&D as the key to our technology leadership and future markets. Almost five percent of our sales revenue are being spent on R&D. To promote the continuous innovation of our technology and process, we also cooperate with several famous universities, like Nanjing University of Chemical Technology, Wuhan University etc. Organofunctional silane is the major focus of our research activities.

QUALITY ASSURANCE

We consider quality control extremely important as a featured producer to provide stable and high-quality products. All of the plants have been certified by ISO9001, for which over 100 senior technicians and engineers worked. And we possess perfect production facilities, precise testing equipment and large-scale laboratories. Also we take great effort to enhance every employee's awareness of the significance of products' quality. All of these factors guarantee the quality of our products. And we will continue to improve levels of quality-control to meet or even exceed the demands of our customers.
